16-18 school or college summary

Students who reached the end of 16 to 18 study in 2016/17 – destination measures (activity in the year following 16 to 18 institution attendance)

Student results are allocated to providers in such a way that it is possible that some students included in the 16 to 18 cohort for the 2016/17 academic year left your institution in 2014/15 or 2015/16 academic years. In these cases, we report their activity in the year following their departure and not in year 2017/18. More detail on this methodology is given in the downloadable guidance document.
