Re: Youth Disorder Hotspots in Mansfield Town centre

We are writing to you as part of our commitment to safeguarding young people in our community. Recently, we have noticed an increase in youths attending an area identified as a prime location for antisocial behaviour concerns. While we are not issuing this letter as part of an investigation, however we believe it is important to inform parents as a preventative measure.

This area has been recognised as one where anti-social behaviour or other issues can occasionally arise. As such, we aim to be proactive in working with young people and their families to prevent any potential risk or misunderstandings.

As a precaution, we encourage you to have an open discussion with your child about the importance of staying safe, making positive choices and avoiding situations that could lead to unintended consequences.

Our role as your local policing team is to support and guide young people in making informed decisions that protect their well-being and foster strong community relationships. Should you wish to discuss this further, please feel free to contact us. Alternatively, please use the QR codes below for advice and local support available for your family.
