

West Nottinghamshire College Outreach

Online Programme of Activities

Our Mission Statement

During this time of home learning, the DANCOP Outreach team at West Nottinghamshire College are committed to continuing to provide your school and learners with the activities you have become accustomed to, and a few new ones too. In order to do this, we are proud to present to you Our Online Programme of Activities. Here you will be able to access online versions of all the Workshops and Assemblies you would be able to normally book with us from our Programme of Activities.

Each session will have a GDPR approved Microsoft Form embedded for students to fill out, in order for us to form a register. We encourage you to let us know what you plan on sharing with your learners and when so we can best monitor our engagements.

We hope you and your students find these resources useful and enjoyable. If you have any requests of additional sessions you would like to see, please let us know as we will be able to produce bespoke online resources where we can!
