

Year 11 Study Period Lesson – Recommended Tasks and Activities

Subject

Design & Technology

Version and Date

V1 – 01/09/2020

The tasks below have been set out by your subject teachers. They're best placed to set these activities but are giving you the freedom to select which of these to focus the study period lesson time on. You could also use this list to give some direction to your own revision/preparation at home.

This list will be updated through the year so make sure you're working of the most up to date version. The PE staff who supervise your Study Period lesson may well ask you to confirm you have completed some of these tasks/activities – if they do please be prepared to show them the completed work in whatever format it was completed – written work, electronic document, online task etc.

Half Term	Task/Activity	Where to find it/what to do
HT1	Identify areas of weakness through the individual RAG documents. Look up key topic; knowledge, skills and understanding and revisit test questions.	RAG document sent through by BHA. Use revision resources from; individual study guide, past exercise books, https://www.bbc.co.uk/bitesize/examspecs/zby2bdm ,
	Students will be given a design analysis question which forms part of section C of the exam paper. This looks at comparing a product with it specification and its suitability for a user group. Students to answer the question based on the product given.	Students given exam question paper. Students should be able to answer the question with limited resources. They should be encouraged to share their responses with other students, to reflect on the answers they have given. Further research could be made around; specifications, target group needs, ergonomics, anthropometrics, and effective product analysis.
