

## Year 11 Study Period Lesson – Recommended Tasks and Activities

**Subject**

Maths

**Version and Date**

V1 02-09-20

The tasks below have been set out by your subject teachers. They're best placed to set these activities but are giving you the freedom to select which of these to focus the study period lesson time on. You could also use this list to give some direction to your own revision/preparation at home.

This list will be updated through the year so make sure you're working of the most up to date version. The PE staff who supervise your Study Period lesson may well ask you to confirm you have completed some of these tasks/activities – if they do please be prepared to show them the completed work in whatever format it was completed – written work, electronic document, online task etc.

Half Term	Task/Activity	Where to find it/what to do
1	Revision / recap activities linked to topics covered in lessons that week.  These will be updated each week and added to.	Assignments will be set on Teams under your Maths Group  There will be a PowerPoint going over examples of each topic, and a Word document for you to complete.  Your teacher will email you the answers the following week which you can use to self-assess.  Your teacher will also issue the relevant Corbett Maths sheet with the videos on so you can use that to support you to complete the assignments.
